

what is a tweet?

A tweet is a short message, comment or statement that is posted on the social media website Twitter.

Tweets use only 140 characters, including all letters, numbers and spaces. So you have to be concise to get your message out. By following another person on twitter, you can read their tweets.

Tweets in SoMe give you a small amount of information about a person. By following them, you will meet them and have a face-to-face conversation in the Chat Room.

how does SoMe use tweets?

SoMe uses tweets to get face-to-face conversation started. Volunteers write tweets about themselves to encourage you to follow them, meet them, and chat.

SoMe also uses tweets to collect the feedback of participants after you've had a conversation. These are written on paper and posted to the message board, and sometimes posted to Twitter by us.
